

## FREEFLY SYSTEMS, INC. ANNOUNCES MOVI

**Woodinville, WA—December 02, 2017**

### **What we are announcing**

Movi - your cinema robot. Movi is a compact film making tool designed to help tell your story. Movi was designed to integrate seamlessly with the iPhone and allow users to execute stunning shots quickly and easily.

### **Why do you care?**

The iPhone is one of the most powerful film and photography tools ever created. The ability to capture, edit, and share high quality photos and videos with a device that fits in your pocket is a game changer for the creative community. To date it's been difficult to create smooth, precise, and high quality videos with the iPhone. Movi unleashes the iPhone's true potential.

### **Where is it available?**

gomovi.com, Freefly webstore and dealers worldwide

### **When is it available?**

Movi launches on December 06, 2017 and will be available for sale via our website. First units will ship in March, 2018.

**Price:** \$299.00
